Purchase Individual Documents through
an IHS Deposit Account

An IHS Deposit Account offers an easy way to complement your existing IHS Specs & Standards subscription service, to meet the needs of a specific project, or as an alternative to a subscription. With an IHS Deposit Account you'll be able to view more than one million document summaries through the IHS Specs & Standards index and then purchase individual documents via its eCommerce functionality.

By buying through an IHS Deposit Account you'll be eligible to receive a 10% discount on most documents and publications (shipping/handling charges and applicable sales tax not included) purchased individually through IHS, providing sufficient funds are available in the account. It also has an optional administrative feature, the IHS Gatekeeper System, which can help maintain your organization's central control and funding of any purchases made.

How it works:

- A minimum of \$500 is required to open an IHS Deposit Account.
- A Deposit Account Number will be forwarded once your initial payment is received.
- With a full function index, Document Lists can be created for specified users to receive email notification of updates to specific documents. The full function index is free with any subscription to content, or can be subscribed to for \$500 per year.
- As purchases are made, funds are deducted from your IHS Deposit Account. You have the option of receiving individual invoices (marked "Paid") as documents are ordered, monthly statements detailing all purchases for that month, or both.
- An online invoice may be printed for each purchase made from your desktop.

It's just that easy to gain access to this valuable research tool and the documents needed to complete your projects.
